

Kansas

Kansas General Comments

- Ft Leavenworth will take on a new role as a Midwestern Joint Regional Correctional Facility.
- While some units at Ft Riley will inactivate as part of the modular force transformation, the end state Soldier population at Ft Riley will exceed 16,000. By 2011, Ft Riley will be the home to 3 BCTs, a Multi-Functional Aviation Brigade, a Sustainment Brigade, and a UEx Headquarters.
- Each unit and activity transferred from Kansas Army Ammunition Plant has been placed to enhance its operational or support capability through consolidations or co-locations. The result of these hard decisions is a basing configuration that better supports our transforming Army and saves money
- Although the Regional Readiness Command is disestablished, a Sustainment Unit of Action will be activated at the Wichita Army Reserve Center to support the NW Regional Readiness Command. Transforming RC facilities in the North West will improve training, readiness and quality of life for more than 2680 RC soldiers, full-time unit support personnel, and their families.

Reserve Component

Gains:

- Establish 1 Sustainment Unit of Action at the Wichita Army Reserve Center in support of the Northwest Regional Readiness Command at Ft McCoy

Losses:

- Realign 1 Army Reserve Center by disestablishing the 89th Regional Readiness Command

Fort Leavenworth

BRAC 2005 Recommendation:

BRAC 05 recommendations have a minimal impact on Ft. Leavenworth. The Midwestern Joint Regional Corrections Facility is established by consolidating multiple correctional facilities at Fort Leavenworth.

Gains:

- Correctional functions from Lackland Air Force Base, Ft Knox, and Ft Sill

Losses:

- None

Fort Riley

BRAC 2005 Recommendation:

BRAC 2005 Recommendations: Fort Riley remains one of the Army's larger heavy maneuver installations that serves as the home to Operational Army units. It has capacity to accommodate rebasing of overseas units as part of the Integrated Global Presence and Basing Strategy. The BRAC 2005 analysis validated the temporary stationing of an Infantry Brigade Combat Team (BCT) at Fort Riley in 2006, along with the two BCTs currently stationed at Fort Riley. BRAC recommendations also relocate a Unit of Employment (UEX) Headquarters, a Multi-functional Aviation Brigade and various support units to Fort Riley.

Gains:

- UEX Headquarters and various units returning from overseas
- Activation of an Infantry Brigade Combat Team
- Attack aviation battalion from Ft Campbell
- Consolidated Civilian Personnel Office

Losses:

- Various engineer, air defense artillery, and support units inactivated

Kansas Army Ammunition Plant

BRAC 2005 Recommendation:

BRAC 05 recommendations will close Kansas Army Ammunition Plant. This closure eliminates excess, reduces redundancy, and transforms other fully workloaded munitions production and storage installations into multi-functional munitions centers of excellence.

Gains:

- None, close Kansas Army Ammunition Plant

Losses:

- Relocated sensor fuzed weapon/cluster bomb function and missile warhead production to McAlester Army Ammunition Plant
- Relocated 155MM ICM and missile warhead functions to Iowa Army Ammunition Plant
- Relocate detonators/relays/delays to Crane Army ammunition Activity
